

RAGT

مؤسسة رياض الحروي للتجارة والإستيراد
R.H. TRADING & IMPORTING CORPORATION

ABOUT RAGT

RAGT, or Riyadh Al-Herwi General Trading and Import Corporation, is a prominent business based in Sana'a, Yemen. Named after the esteemed Al-Herwi family, known for their longstanding presence in Yemen's commercial sector. The origins of the company can be traced back to Haj Abdul-Jabbar Al-Herwi - may God have mercy on him - who established his business in 1950. He primarily focused on importing goods from various countries, including China and India.

In 1980, the family business experienced growth and established itself as a prominent distributor in multiple sectors such as glass, tea, frames, and others. Throughout the years, significant business knowledge was transferred from Haj Abdul-Jabbar to his sons, including Mr. Riyad Al-Herwi, who is the founder of RH Exchange Co. Mr. Riyadh Al-Herwi and his brother, Mr. Mubarak Al-Herwi, are the owners of **RAGT**. Mr. Mubarak Al-Herwi brings more than 16 years of commercial and academic experience from Canada, which has greatly enhanced the institution's expertise in global trade.

The Corp. encompasses various sectors such as information and communication technology, renewable energy products, consumer goods, logistics, and consulting. With its scientific capabilities, expertise, and practical experience, the organization is well-equipped to address market demands and deliver advanced technological solutions.

Our Vision, & Mission

• Our Vision:

We aim to be a leading trading company, favored by customers, suppliers, and investors. This will be accomplished through high-quality products, exceptional services, and adherence to our core values:

- Creativity
- Commitment
- Integrity
- Determination
- Diversity
- Professionalism
- Trust
- Liability

• Our Mission:

Our mission aligns with the stated visions and values, reinforcing their significance:

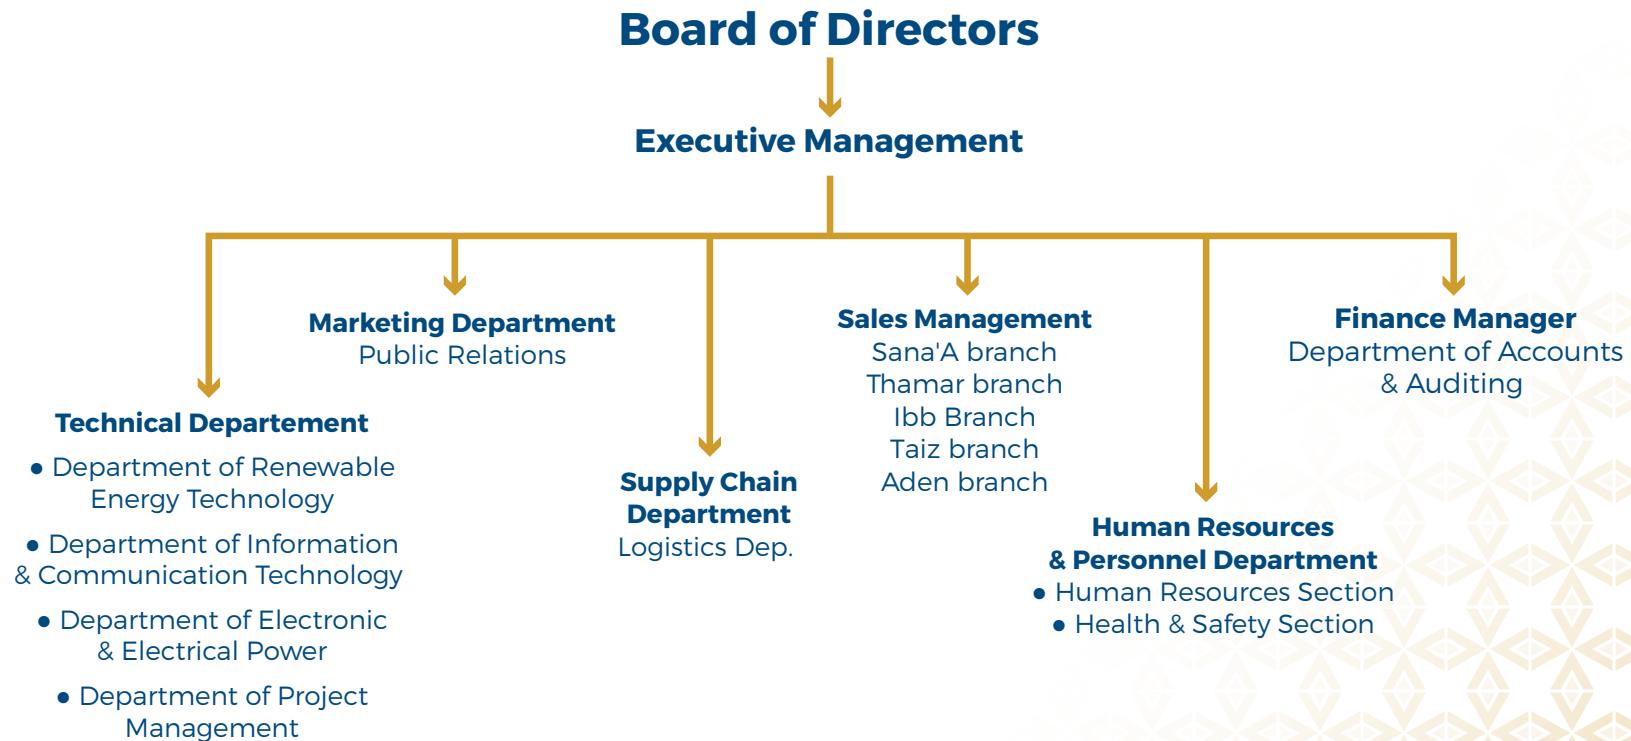

- We value and consider the opinions and suggestions of our clients, with support from well-trained experts in their fields.
- As a market supplier, we seek the best industrial companies to collaborate with, providing high-quality consumer products and fostering strong brands through special sponsorship
- We encourage our employees to work energetically and professionally, with courtesy, flexibility, and a commitment to excellence. Cultivating talented, creative, and responsible leaders is a key part of our focus on providing exceptional service.

Our Team

(Organization Structure)

Our employees are our most valuable resource. To foster the growth and success of our business, we depend on their experience, creativity, motivation, and relationships. Our commitment to delivering exceptional work and earning the trust of our customers has led us to establish a diverse and skilled team.

Our Leadership

May God have mercy on the late
Hajj Abdul Jabbar Al-Herwi
Founder of Al-Herwi Group

The late Hajj Abdul Jabbar Al-Herwi, founder of Al Harawi Trading Group, came from a humble family of seven siblings, being the second among them. Despite facing hardships, he dedicated himself to supporting his father and overcoming the challenges life presented. From a young age, he tirelessly worked as a farmer alongside his father, frequently traveling between cities.

Driven by his ambitious spirit, he made the decision to venture into the world of trade. Initially, he began his entrepreneurial journey by selling home cooking gas in the Harwa market for several years. As he tasted success in this endeavor and accumulated sufficient funds, he took the next step by establishing his own shop. From there, he began procuring goods locally from various cities.

During the 1980s, he relocated to Taiz and made it his permanent residence. It was during this time that his son, Riyadh Al-Herwi, joined him in his business ventures. As their company grew, it eventually became one of the most prominent institutions and companies in Yemen. Moreover, they became significant shareholders alongside Hayel Saeed Anam & Co., solidifying their presence in the business landscape.

Our Leadership

Riyadh Abdul Jabbar Al-Herwi

● **Renewable Energy Systems**

● **Information and Communication Technology**

● **Logistics**

Implementation of Construction Projects

The corporation carries out construction projects in their entirety, beginning with technical studies and design plans, and proceeding to the execution of various types of buildings and facilities. Project Management involves effectively organizing and overseeing human resources to ensure the successful completion of projects.

Implementation of Rehabilitation and Restoration Projects and Operations for Buildings

The Corporation conducts preliminary studies and executive designs and implements all stages of rehabilitation and restoration of buildings and facilities as:

Qualification: It is the process that is concerned with re-employing the building constructed according to new requirements with a partial or total change in the building to suit new service functions partially or completely different from the building's activity.

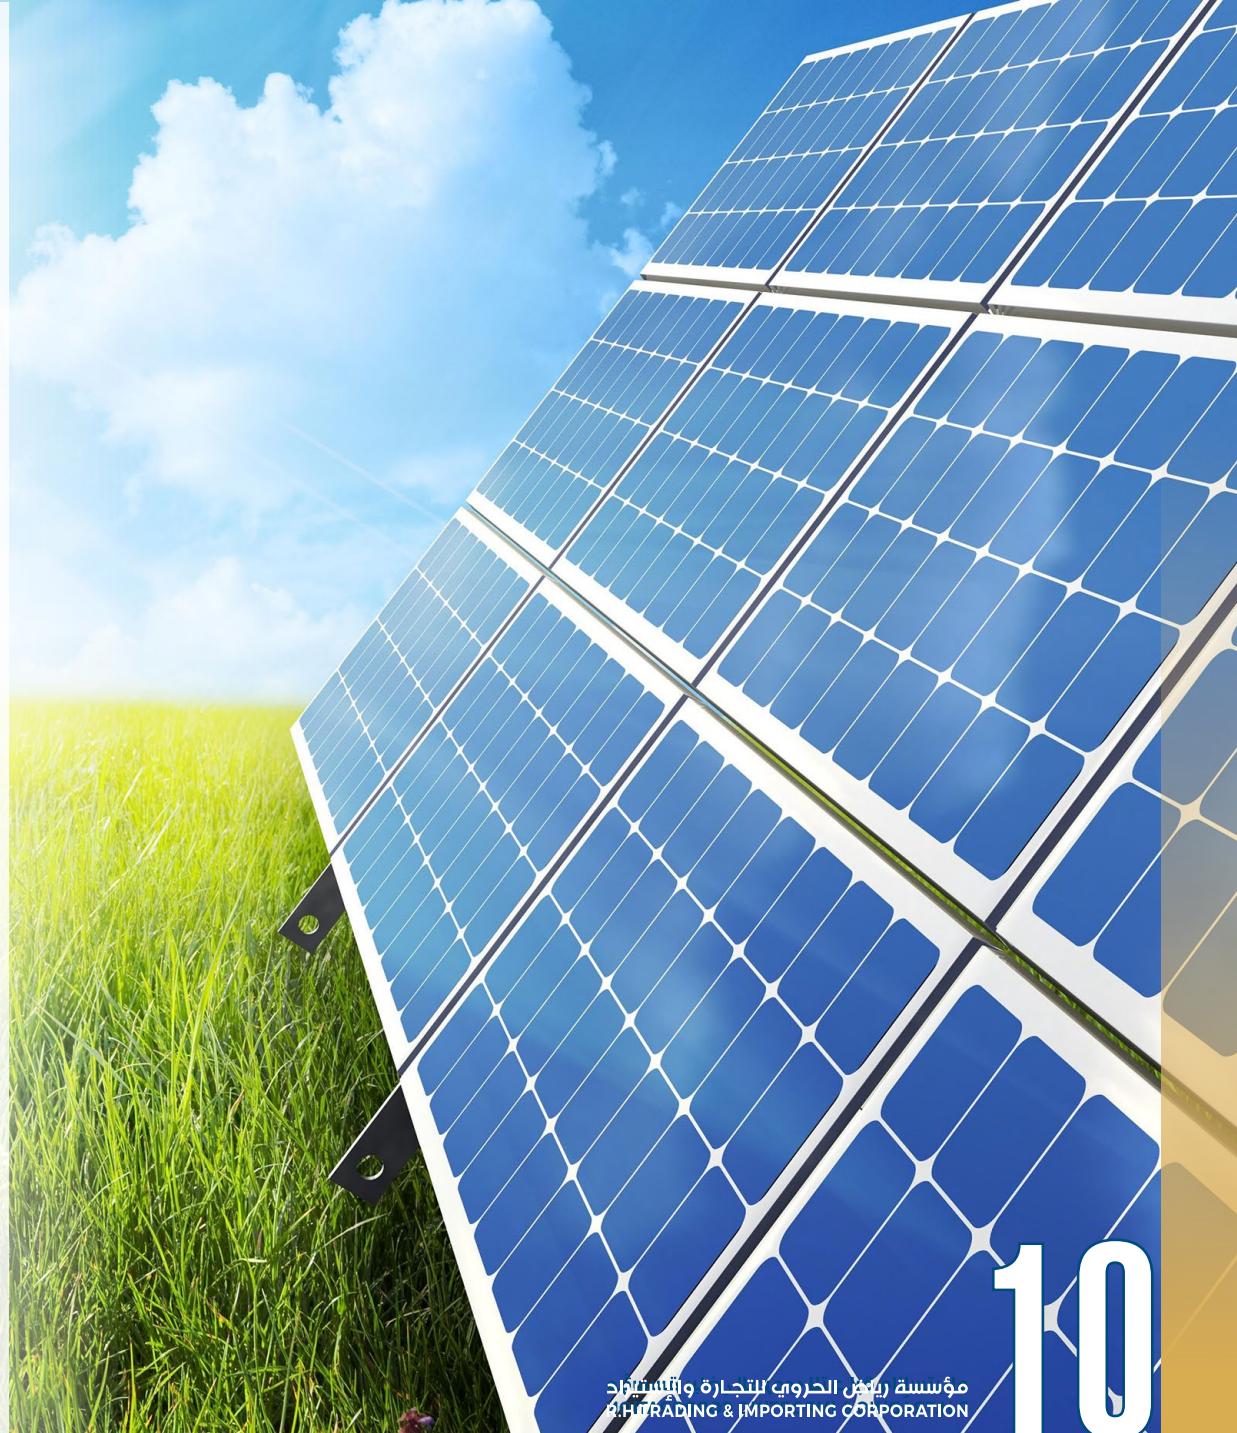

Restoration: During the period of investment and use, the structural elements are exposed to different working conditions and may be different from the design considerations of these elements, which leads to affecting the durability and durability and benefit from their durability and make them need to re-evaluate their durability and durability to determine the extent to which the building needs the restoration process through the work of all the needs of the building and maintaining the nature and activity of that building after the restoration process.

Renewable Energy Systems

RAGT provides a diverse selection of cutting-edge solar solutions tailored to meet the unique needs of customers and align with the specific requirements of their businesses. The Corporation offers a comprehensive range of services within this domain, which include:

- Supply, design, and installation of all solar energy systems.
- Supply of all solar energy products (charging regulators, batteries, panels, inverters).
- Serving all sectors that require systems from buildings, agricultural, and electrical sectors.
- Providing a specialized team of technicians, engineers, and electricians.
- Provide technical support and after-sales services

Information and Communication Technology

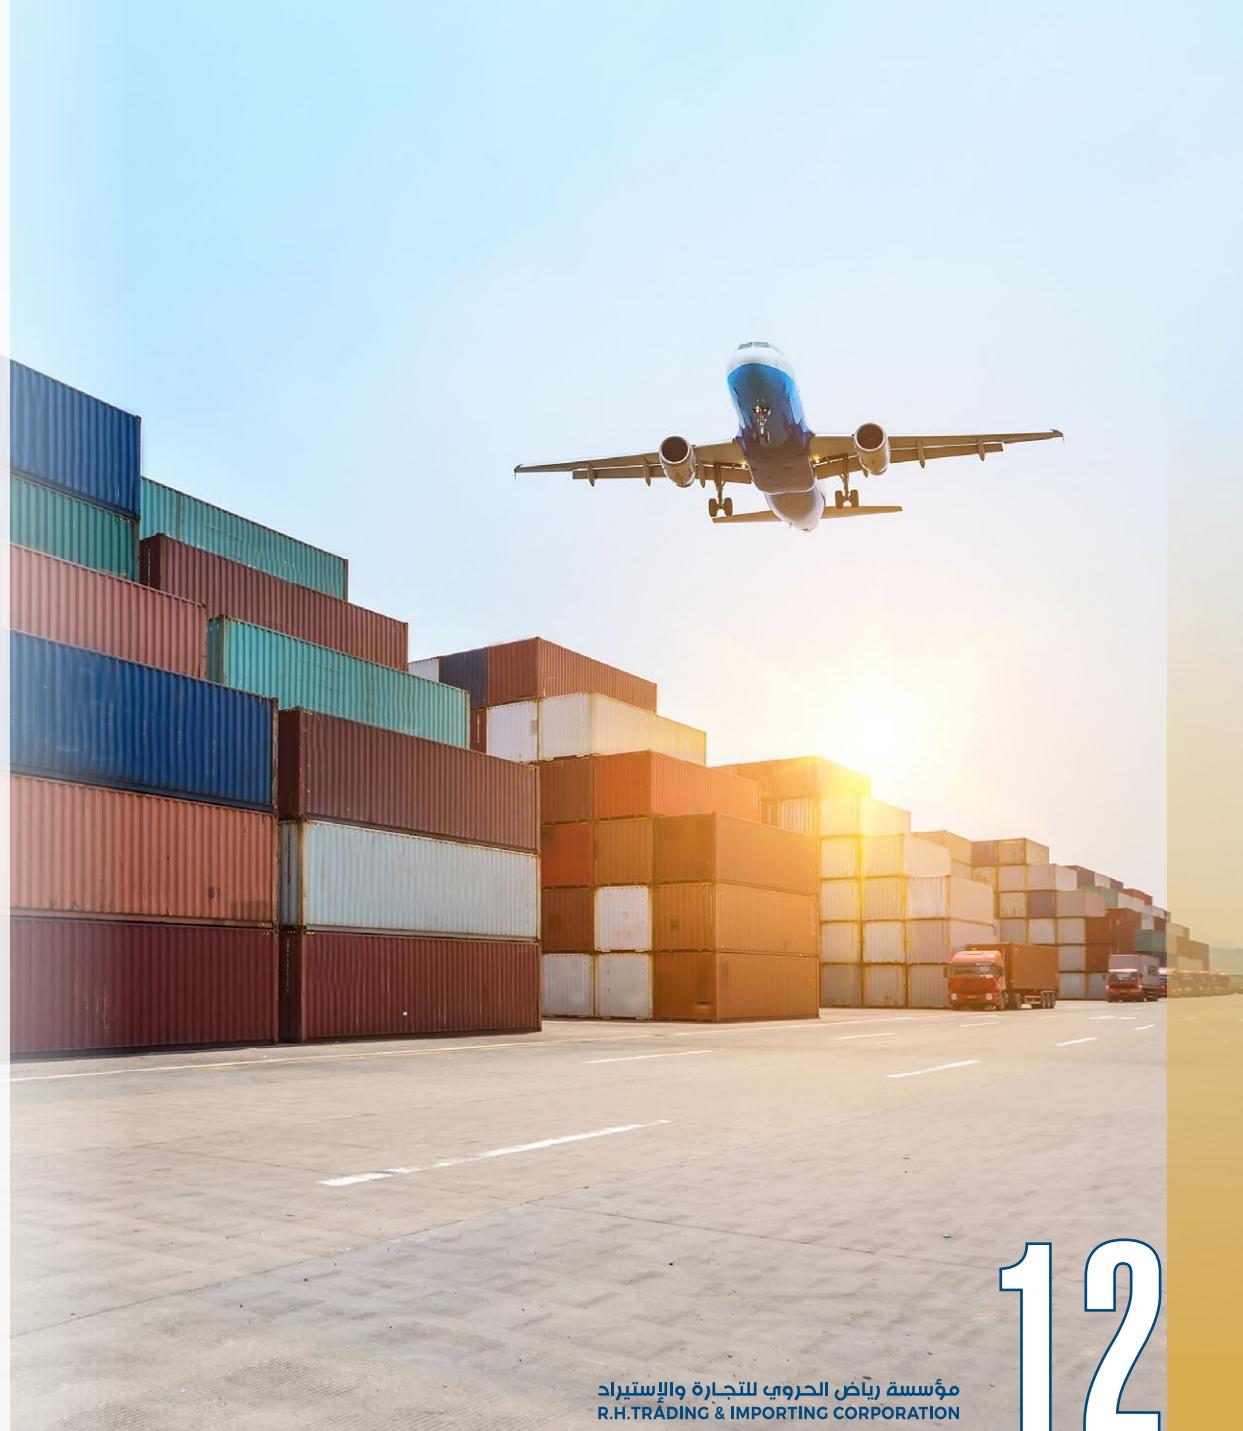

The Corporation aims to deliver contemporary information and communication technology solutions to its customers. Its primary focus is to support telecommunications companies, organizations, and other clients in this sector by offering specialized and efficient services and solutions:

- Supply of devices and equipment
- Extension and connection of networks
- Provide technical support and programs

Logistics

RAGT strives to enhance and optimize the efficiency of the critical logistics sector through its comprehensive logistics services. We offer a range of services related to the logistics industry, including shipping management for land, sea, and air transportation, as well as licensing, clearance, supply, and warehousing solutions for shipping companies.

Society responsibility

RAGT has partnered with Takaful Alkhair, a non-profit organization, to support women and children in need. Takaful Alkhair is a charity, social, and development foundation that was established in 2013 by the Al-herwi Family. Since its establishment, the charity has carried out a range of projects and programs in Yemen, with a focus on health, food, and education for women and children.

The projects that have been sponsored by RAGT through its partnership with Takaful Alkhair include:

- A health clinic that provides free medical care to women and children.
- A school that offers free education to girls.
- A food program that provides food assistance to families in need.
